The News.

The military situation continues to be of the most cheerful and encouraging character. Sherman, Sheridan, Schofield and Terry are demonstrating the truth of Gen. Grant's assertion made some months since, that the South is a mere shell. The shell is being rapidly crushed. Sherman is last heard from at Laurel Hill on the 8th inst., a little station on the Wilmington and Charlotte R. R. about 100 miles from both Wilmington and Raleigh. His dispatch says "all is well."

Schofield has whipped Bragg and drove him across the Neuse river.

A rebel deserter says Sheridan has captured Lynchburg. It needs confirmation.

It is said Lee has sent a large force to check Sheridan.

President Lincoln has been suffering with a severe attack of influenza for several days. He is confined to his bed, and not receiving visitors.

Troops at the number of 1,500 per day are leaving New York for "the front."

The elegant gold medal and the resolutions voted by Congress were presented to General Grant on Saturday, by a committee of Congressmen, with Mr. Washburne at their head.

P. S.—A later dispatch just received as we go to press, brings news of Sherman at Fayetteville, N. C., and everything going well.

Gold closed at 1.74.

Charleston.

A recent letter from Charleston says: "Under the new order of things the people of Charleston are gradually coming to their senses, and evince a disposition to make the city once more the leading trading mart for this section of the country. When we first took possession the citizens were shy, and hesitated about making their appearance on the street, but now they come forth in swarms, and of course the majority of them profess to be on the side of the Union. Were it not for Northern enterprise, however, Charleston might remain in the same dormant state in which we found it, for years. But happily the new comers have infused a spirit of activity into the old inhabitants, and we shall see the city in a few months' time full of life and gayety. Some of the citizens still cling to the hope that the rebel Government will eventually succeed in establishing itself on a firm basis, but the same citizens are laughed and sneered at by their more wise neighbors."

A WASHINGTON dispatch says 60 officers and 1,400 privates captured by Sheridan in the valley, passed over the Baltimore and Ohio railroad Saturday, and will be forwarded to Fort Delaware. The officer in charge of them reports that there are about 700 more prisoners on their way down. The guard with the prisoners were several times attacked by guerrillas in passing through the valley of Va. The guerrilla parties consisted of from 100 to 150 men, and were in all cases driven back without doing any damage.

HUGH MCCULLOCH, Secretary of the Treasury, is said to be a native of Maine. He studied law, and after he had been admitted to the bar in 1831, went to South Bend, Indiana, to practice. Afterwards he removed to Fort Wayne, and was soon persuaded to temporarily accept the position of Cashier of a branch of the State Bank located there. Since then he has been identified with the State banking system of Indiana, and was at the head of it when he was invited to take his present position.

THE CURCUIT JUDGESHIP.—The Whitewater *Register*, Delevan *Republican*, Broadhead *Independent*, Beloit *Journal*, Burlington *Standard*, Racine *Advocate*, Racine *Journal* (dem.) and Monroe *Sentinel* have all published editorials warmly endorsing the course of Judge Noggle, and urging his re-election.

THE Toronto *Globe* says that our Government has informed the Canadian Government that, notwithstanding the notice for the termination of the treaty relative to the naval forces on the lakes, there will, under present circumstances, be no increase in the force on the lakes.

THE condition of the people of Texas may be inferred from the fact stated in the Houston *Telegraph*, that more than four hundred families in that city (of less than 8,000 inhabitants) are dependent upon the city for the necessaries of life.

AN inventory is being made of the guns captured at and around Charleston. The number even now foots up 450, which is more than double the estimate made by our officers at the surrender.

VICE PRESIDENT STEVENS, of the rebel Confederacy, was at Charlotte, North Carolina, recently, on his way to Georgia, but tarried awhile to see how he could best dodge Sherman who was directly in his path.

IT was a subject of remark that Chief Justice Chase, Secretary Stanton and Vice President Johnson did not attend the Inauguration Ball.

State News.

The Fond du Lac *Press* notes that Hon. Chas. A. Eldredge has returned to his home in that city.——The Beloit *Journal* gives an account of the installation of Rev. Geo. Bushnell as pastor of the first Congregational Church in that city. Mrs. Clary, the wife of the American Home Missionary Agent for this State, was "surprised" with the gift of $150 the other day. The *Journal* says Parker and Stone's reaper works are growing into quite an institution. They turn out about 100 sickles a day, and expect to make 400 reapers and mowers this summer.——Mr. F. S. Haughwout has sold out the La Fayette County *Union* to Mr. A. F. Dickenson, a sound Union man of Darlington.——The Platteville *Witness* notes the arrest there of an old man named Penny, a deserter from the 37th Iowa Regiment.——The Manitowoc *Pilot* says that Mr. John Maher, a worthy citizen of Franklin, Kewaunee county, was accidently killed the latter part of last month, while working on the Peninsula railroad, below Green Bay. There was one of the heaviest storms of the season at Manitowoc last week, six inches of snow and a severe wind.——The Whitewater *Register* notes the arrest of several deserters there.——The Milwaukee *Sentinel* of the 13th, says the 48th has about 700 men in camp, whom Lieut. Col. Shears is rapidly preparing for the field. It is expected the regiment will be fully organized in the course of a week.——There will be a sheep shearing festival held on the fair grounds of the Walworth County Agricultural Society, in Elkhorn, on the 10th day of May next. It will be an interesting affair, of course, and as the department of wool-growing is now one of the most important in our domestic economy, we may look for a large gathering. The invitation is extended to other counties, we believe. It will be a good place for wool growers who have blooded stock for sale, to advertise the same.

THE OIL SENSATION IN APPLETON.—We have been on a visit to the gas well at Appleton, and can assure our readers that the belief that oil exists, is not without foundation. The well is about sixty feet deep, the bottom resting upon a stone bed, in which there seems to be a crevice through which the gas escapes. The gas makes a brilliant light, and escapes with a rumbling noise that can be heard a considerable distance. The well needs to be pumped out every few hours, or it rises to such a depth as to stop the flow of gas.

The Appletonians are in a perfect fever of excitement, and land which would scarcely have brought $20 per acre, two months ago, is held at a fabulous price, and no one thinks of selling. The company already organized are commencing operations in good earnest. They have already raised a derrick, and will commence boring as soon as the engine is ready for use, which will be in a short time. The work is prosecuted under the superintendence of a Mr. Palmer, who has had three years experience in the Pennsylvania oil regions, and who pronounces the indications to be decidedly good.—*Fond du Lac Press.*

CURRENCY MATTERS.—Nothing particularly new or interesting has been developed to-day in currency matters. No apparent excitement exists on the subject. Country banks are directing the redemption of their currency in the city and are being added to the current list.—*Milwaukee Sentinel.*

SHERMAN IN SOUTH CAROLINA.

Sights and Scenes in Columbia on His Arrival.

[Correspondence of the Richmond Whig.]

CHARLOTTE, Feb. 22, 1865.

Time has sufficiently quieted our nerves and restored a healthy circulation, to enable one to narrate a consistent story of the troublous hours through which we of Columbia have been led during the past week.

Sherman's advance on Columbia was unexpected. Sudden as surprising, it found all unprepared for the events which followed, and few cool enough in the crisis to yield to any other than the bent of the first impulse. Hence hundreds are to-day exiles from home who would give almost their all to be safely back. They have learned that being a refugee don't pay.

Orangeburgh and Kingsville were supposed to be the highest points northward on that line at which Sherman would strike. The people who planned his campaign thought from thence he would branch off towards Charaw and Fayetteville, leave Columbia untouched. Four days dispelled the illusion. Our troops fell back until the sounds of cannon reverberated through the city. Then public officers for the first time began to think of removing the Government stores. The instructions from Richmond had left many of them no other discretion. Hurry, excitement and some confusion became the order of the day. Everybody, public and private, wanted a car. The President of the Charlotte & South Carolina Railroad, Colonel William Johnson, his assistants, Captain Sharp, the agent of transportation, and his aids, now bent their energies to the Herculean task before them, and accomplished all that men could do. The trains from the South Carolina and Greenville roads were run upon the Charlotte track, filled and hurried away to return and fill again. Engines shrieked their signal notes, morning noon and night. The activity was ceaseless. The depots were crowded with goods of every description. Passenger trains were thronged, ladies and families in their fright undergoing the most grievous torments of travel to escape from what they believed was a doomed city. The city resounded with the rumble of a thousand wheels all bearing their freight to the grand funnel out of which it was to be discharged. Horses, wagons, negroes, every thing that could aid in the removal of property, was brought into requisition, and between force and persuasion, an immense amount of labor was systematically, rapidly and judiciously employed.

By Wednesday night the tide was at its height. The enemy were within three miles. The little army in their front had given back step by step until, flanked out of the fortifications on the opposite side of the Congaree, they retired to the limits of the city itself, where a line of battle again reformed. Three or four shells thrown at the bridge increased the popular agitation until it became a fever. The stores were closed. Militia and detailed men were at the front. Army trains began to move through, and the truth at last flashed upon the minds of all that Columbia must inevitably be evacuated. Few slept soundly in their beds during the night that followed.

Thursday, the 15th, the enemy opened on the city with shells. Some damage was done, but few casualties are reported. The State House, Nickerson's Hotel. *South Carolinian* office, together with some private residences, were paid an iron compliment, and the inmates evacuated without the usual polite formalities of leave taking. Still the work of removal went bravely forward, and a vast amount was accomplished. The time was too brief, however, to do all, and hundreds of thousands of dollars' worth of public and private property remained in and about the depot, as a prey to the Yankee torch and pillerer.

The worst feature of the entire scene occurred on the day of which I write. A party of Wheeler's cavalry, accompanied by their officers, dashed into town, tied their horses, and, as systematically as if they had been bred to the business, proceeded to break into the stores along Main street and rob them of their contents. A detachment of detailed men fired on one party and drove them out. Captain Hamilton, the Provost Marshal, with another officer, drew swords and pistols on another party, and succeeded in clearing several establishments; but the valiant raiders swarmed like locusts, and to-day, a hundred miles away from Columbia, you may see men smoking the cigars and wearing on their saddles the elegant cloths stolen from the merchants of that city. It is said that two of the "cavalry" drew pistols on General Hampton, who was attempting to protect a store, and threatened his life.

Under these circumstances you may well imagine that your people would rather see the Yankees or old Satan himself than a party of the aforesaid Wheeler's cavalry. The barbarities committed by some of them are represented to be frightful, "life liberty, and the pursuit of happiness" being perfectly incompatible with their presence.

Common rumor says that Sherman's treatment of citizens and private property was uniformly lenient and conciliatory. His headquarters were at Nickerson's Hotel.

The scenes up the railroad may be briefly described. Crowds at every depot seeking temporary shelter; some getting off, more getting on; twenty trains thundering one after the other in quick succession; screaming locomotives, crying babies, tearful women, families traveling in box cars among piles of bacon, salt, bandboxes, trunks and bed-clothes; a breakdown near Winsboro; engine off the track; ten hours' delay; enemy reported coming; more consternation; a long night; no wood, no water, no breakfast; ten car-loads of ladies of the Treasury Department in the most unattractive morning *dishabille*, with hair unkempt, and hollow, sleepy eyes, shivering about in the red, mucillaginous mud; ten or twelve carloads of Yankee prisoners just ahead, likewise at a dead halt, the guard around their camp fires, and the individuals of a cerulean aspect singing with tremendous energy Union songs; still ahead, the section-masters and bricklayers, with a gang of laborers repairing the road and holding post mortem examinations over the remains of a deserted engine; finally, a run back three miles, a filling of tanks, a fresh start, and arrival at Charlotte. There an avalanche upon the good people, an appeal to hospitality which is most warmly heeded, and a gradual simmering down of all the elements in agitation. Such, in brief, is the history of our evacuation of Columbia.

THE Richmond *Enquirer* says that slavery is dead in Virginia.

What has been done in Three Months.

The New York *Times* says:

Had any one, at the time of the Presidential election in November last, predicted the military achievements of the three months of winter, he would have been looked on as a lunatic. The fall of the great rebel strong holds of Wilmington, Charleston and Savannah, the occupation of the capitals of South Carolina and Georgia, the march of Sherman from Chattahoochee to the ocean, and from the ocean to the Great Peedee, the rout and demolition of Hood's army, the scatteration of Cobb's forces, the double hegira of Hardee, the flight of Beauregard, the flight of Bragg or Hoke, the advance into North Carolina and toward Lee's rear, the possibility of such a speedy achievement of such vast labors, the possibility of such a marvellous and unbroken series of successes, entered into no sane man's head. But this bold catalogue gives a faint idea of the greatness of the triumphs of the armies of the Union, and the staggering blows and irretrievable damage inflicted upon the rebellious South.

This morning it is Wilmington which we proudly record as being under our flag. Since the fall of Fort Fisher and the subsequent reinforcement of our army, operations have been steadily prosecuted by Gen. Schofield, looking to the capture of the city.

The various and vital bearings of the capture of Wilmington have often been shown. But now it is of incalculably greater importance than ever it was before, from its relations to the present march and prospective advance of the army of Gen. Sherman. The large force of Gen. Schofield at Wilmington will now be relieved, and the Twenty-third Corps speedily effect a junction with their old comrades under General Sherman, with whom they so long campaigned in the Southwest. (On this head, we may note, *en passant*, that the army of General Gilmore at Charleston, is now also released to co-operate or combine with Sherman.) Whether or not Gen. Sherman will now strike in the direction of Wilmington, is a matter about which nothing is known at present; but it is altogether likely that he will concentrate all the forces possible before he makes the grand and final advance, in co-operation with the Army of the Potomac, and under the orders of the Lieutenant General, upon the rebel capital and Lee's rebel army.

LA CROSSE RAILROAD CASES.—We understand that the parties interested have received intelligence from Washington that the Supreme Court of the United State has decided that all the rolling stock on the whole road, when the receiver was appointed, except forty box cars, belongs to the Milwaukee and Minnesota R. R. company, and not to the Milwaukee and St. Paul company, and that the Milwaukee and Minnesota company is entitled to possession of the road from Milwaukee to portage on payment of interest due, which that company offered to pay into court about a year ago.

This litigation about the rolling stock, it is represented, is thus finally set at rest. The St. Paul company claimed to be the owner of the rolling stock as against the Minnesota company, and by having obtained possession under the order of the district court, has as is claimed, controlled it to the detriment of the eastern division. The receiver is now required to take immediate possession of this rolling stock; and the St. Paul company it is alleged, must purchase new stock for its road. Between these contending parties the public has no other interest than that the litigation should be ended, which, as is assumed by the eastern division, this decision will probably accomplish.—*Milwaukee News.*

A GOOD STORY ON HOOD'S NASHVILLE CAMPAIGN.—One day on the retreat of our army from Tennessee, General Hood became gracious and good humored. He said to a dirty, ragged veteran of the 10th Tennessee:

"How are you boys getting along today?"

Soldier—Pretty well, General; we barefooted fellows suffer some.

General—"We'll have better luck next time. There was a fair *deal*, but luck was against us."

Soldier—It strikes me, General, them *kerds* were decidedly badly shuffled.—*Richmond Whig, 1st inst.*

A GENTLEMAN, says the Peoria *Transcript* of the 2d, who has just returned from a trip through Southern Illinois, informs us that he examined the peach buds in nearly all the counties in that part of the State and found none but were killed by the frosts. This makes a bad showing for the lovers of that delicious fruit.

THE builders of the great Boston organ have contracted to build one of the largest dimensions for Henry Ward Beecher's Church in Brooklyn. The contract price is $20,000, and the instrument is to be furnished by the first of January.

In the rebel prison at Salisbury, N. C., WILLIAM W. VIRGIN, of Johnstown, Rock Co., Wis.

Mr. Virgin was born August 6th, 1831, in Bradford, Vt., and enlisted in Co. A, 36th Wis. Infantry, March 24th, 1861. He was taken prisoner in an attack on the Weldon railroad, August 25th, and confined in Richmond one month, when he was taken to Salisbury, at which place he died on the 25th of last November. He leaves a widowed mother, a brother and sisters to mourn his sad fate. But their cup of sorrow is not unmingled with consolation in that he spared not his life in the hour of his country's peril, and to-day sleeps with the martyr host

With all their country's wishes blest."

PETROLEUM IN ROCK COUNTY.—While other portions of the State are organizing oil companies that intend to operate in Pennsylvania and Canada, the citizens of this county propose to worship the new American deity, Petroleus, upon our own soil and tickle mother earth with a pod auger at home. A few miles up the river, Allen and Woolscroft are vigorously prospecting with certain indications that are regarded favorable by those who pretend to know, while at Edgerton in this County, the oil excitement is very great. We learn that in the cellar of Frank Smalley has been found an oily substance supposed to be the premonitory symptoms of petroleum in its anxiety to get to the earth's surface, and it is stated that a rag dipped in said liquid burns quite freely, as some rags would undoubtedly do if not dipped in anything, and that upon digging down three or four feet in the bottom of said cellar, the clay is strongly saturated with something that smells like crude petroleum. The excitement in that little burg in consequence of this supposed discovery is intense, and real estate has a strong upward tendency. The lot upon which the discovery is said to have been made, is held now at $5,000, whereas it could have been bought a few days since for as many hundreds. We have conversed with candid men living in that vicinity who really think there is something in it. In a few days we shall know more about it.

OFFICIAL BULLETIN.

Washington, March 14—*To Major Gen. Dix*:—Dispatches direct from Sherman and Schofield have been received this morning. Sherman's dispatch is dated March 8th, at Laurel Hill, North Carolina. He says we are all well and have done finely. Details are for obvious reasons omitted.

Gen. Schofield in a dispatch dated Newbern, March 12th, states that on the night of the 10th near Southwest creek, Bragg was fairly beaten. During that night he retreated across the Neuse at Kingston and now holds the bank of the river at that place.

E. M. STANTON.

FROM NEW HAMPSHIRE.

Concord, March 14—The election of State officers and members of Congress and Legislature took place to-day. The Republicans supported Frederick Smyth for Governor, and the Democrats Edward H. Harrington, both residents of Manchester. Returns received indicate that Smyth's majority will exceed 6,000. Many towns make considerable Union gains over the vote of last year when Gilmore's majority was 5,5000. The vote to-day will be some thousands less than last year. The result of the First Congressional District is close.

CONCORD, N. H., Tuesday, March 14.—The following is the vote for Governor, in 127 towns: Smyth, 24,065; Harrington, 18,313. Marston is elected to Congress in the First District, and Patterson and Rollins are re-elected by about 2,000 majority.

LATER.

NEW YORK, Tuesday, March 14—10:30 p. m.—Returns from nineteen towns and cities give Marston, Representative for Congress, 4,907. This insures the election of three Republican members of Congress from New Hampshire—a gain of one.

FROM WASHINGTON.

New York, March 14.—The *Commercial's* Washington special says the question of anticipating the payment of May coupons of the 5-20 bonds is under consideration at the Treasury Department.

It is doubtful whether Mr. Harlan will accept the Interior Department.

The *Posts'* Washington special says Secretary McCulloch expresses the opinion that large quantities of cotton will reach the North during the next three months.

Washington, March 14.—The amendatory national currency act provides that associations shall receive 90 per cent. of circulation notes on the amount of the U. S. bonds delivered to the treasury, provided the bonds shall be estimated at par value and bearing interest at the rate of not less than 5 per cent. per annum. The amount of circulating notes to be in proportion to paid up capital as follows: Not exceeding $500,000, 90 per cent.; exceeding $1,000,000, 80 per cent.; not exceeding $300,000, 75 per cent, and exceeding $300,000, 60 per cent.; $150,000,000 of the entire amount of circulating notes to be appropriated to associations according to the representative population and the remainder to be apportioned by the Secretary of the Treasury among associations formed.

Washington, March 14.—The statement has been extensively published that the Secretary of the Treasury had decided to send the cotton captured at Savannah, to Europe. He has come to no such determination, nor has he had the subject under consideration.

Gen. Dix has not yet fixed the day for the execution of the spy and incendiary, Robert Cobb Kennedy, but will do so as soon as the sentence of the Court Martial has been approved by the Secretary of War.

Seven hundred bounty jumpers, arrested by Col. Baker on Saturday, were sent to the front yesterday. A party of 1,500 men leave this city for the front to-day; 288 sailed to-day on three steamers for Fortress Monroe.

The *Times*, editorially, thinks probably Sheridan moved from Columbia to join Grant, by crossing the James River and Southside Railroad.

A rebel corporal says it was currently reported in Lee's army that Sheridan has already captured Lynchburg, after a brief battle.

The *Times'* Army of the Potomac special of the 12th says: "There is no military news, but the fine weather gives a prospect of a movement."

It is pretty well established that another considerable portion of Lee's army, comprising Mahon's division, left our front last night. It is supposed that they have been sent to arrest the movements of Sheridan.

FROM THE SOUTH.

Washington, March 14.—A returned Union prisoner who reached Annapolis today, direct from Richmond, communicates some interesting intelligence in relation to affairs at Richmond and Sheridan's movements. He says he was confined in Castle Thunder, and through friends of the Union, citizens, he obtained much information relative to events transpiring, about which Richmond papers are silent. On Saturday night last Richmond was thrown into intense excitement by the announcement that Sheridan was near the city. The alarm bells was rung and all the home guards and every available man that could be spared, was hurried off to repel the Yankees, who were said to be at Beaver Mills aqueduct, on the James river, some twenty miles from the city, destroying the canal, the main feeder of Richmond. The excitement continued all night, and increased to a panic throughout Sunday and up to Monday morning. When he left the alarm still prevailed. It was understood that Sheridan had succeeded in the destruction of the aqueduct, blowing it up with gunpowder, and it would take at least three months to repair the damage done by him.

During Sunday afternoon Pickett's division passed Castle Thunder, in great haste, on their way to meet Sheridan. It was believed to be Sheridan's purpose to cross the James and strike the Danville Railroad, near the coal fields, where there is an extensive bridge, destroy that, and thus complete the destruction of communication with Richmond, and then make a junction with Grant.

Movements indicative of preparations for the abandonment of Richmond have been in progress for some time. The heavy machinery for manufacturing iron has been removed; also the machinery of their percussion cap manufactory; and all the carpenters in town were at work filling orders for packing-boxes.

The high water in the James had subsided, so much so that the boat which conveys prisoners from Richmond could not pass above Rockets, as she had been doing previously. From this circumstance it is hoped that Sheridan will find less difficulty of crossing the streams on his line of march.

FROM NORTH CAROLINA.

Ft. Monroe, March 17.—The steamer *Virginia* arrived last evening from Wilmington. The base of supplies for Gen. Sherman's army, in view of his rapid movements northward, is to be established at Wilmington, N. C. Sherman's Chief Quartermaster had arrived at Wilmington, and all the transports and other vessels laden with supplies, have been ordered from both Charleston and Savannah, with orders to rendezvous at New Inlet, S. C.

THE EXCHANGE OF PRISONERS.

Ft. Monroe, March 17.—The exchange of prisoners under the recent arrangement at Variena Landing between Col. Mulford and the rebel agents, is progressing very rapidly. The steamer *Geo. Washington* arrived from there this morning with 180, mostly sick and wounded. The steamer *New York* is expected also to-day with a large number. As fast as the steamers arrive they are dispatched to Annapolis.

FROM NEW YORK.

New York, March 14.—Gold opened at 184¼, and afterwards touched 1.85, but upon recent news direct from Sherman it gradually fell to 1.80¼.

The vote on the constitutional amendment in Brooklyn is very light but largely in favor of its adoption.

COTTSCHALK ON KNABE.

[Translated from the French.]

After having played on the Piano of Messrs. Knabe & Co., it is impossible not to bear testimony to their qualities, which have acquired for them the eminent reputation which they enjoy. The Pianos of their manufacture, on which I have played, are exceedingly remarkable for their qualities. The bass is powerful without harshness, and the upper notes sweet, clear and harmoniously mellow, (chrystalline,) and I do not hesitate to express in regard to these instruments my entire satisfaction, and to declare that they are equal if not superior to the best manufactured in Europe or this country by the most celebrated makers.

A Sweet Scented Bill.

Assembly bill number 389 embodies some of those sublime conceptions of modern legislation which render our laws so stable and brilliant. It proposes to abolish all publication of tax notices, which will be a good thing for sharks and speculators; it reduces interest on delinquent taxes from twenty-five to ten per cent., thus offering a premium to people not to pay their taxes when due; and it postpones tax sales until three years after delinquent returns. The only wonder is that it does not propose to abolish all publication of tax notices and sales—make the interest on delinquent taxes seven per cent., and postpone tax sales indefinitely.

Of course the members of the present legislature are too sensible to pass so absurd a measure.

Legislative Correspondence.

[From Our Regular Correspondent.]

MADISON, March 14th, 1865.

Editors Gazette:—In the Senate last night, no business of special interest was acted on.

In the Assembly, Mr. Starks, who had left the bedside of a sick son for the purpose, got leave to record his vote on the constitutional amendment abolishing slavery and voted "aye." Among the bills introduced, was one to require certain officers of railroad companies to be citizens and residents of Wisconsin. The Committee on State Affairs to whom was referred the report of W. Y. Selleck, commissioner for Wisconsin, in the matter of the "Soldiers' National Cemetery, at Gettysburg, Pa.," reported a bill "to appropriate $2,623 towards the final completion of the Soldiers' National Cemetery." A short farewell address was read from Mr. Reed of Door, who has left his seat to go into the field as quartermaster of one of the lately raised regiments. A series of resolutions complimentary to the retiring member was then presented and the Assembly adjourned.

In the Senate this morning, a resolution was adopted requesting the State Treasurer to furnish a statement of the amount of money heretofore advanced by Wisconsin for war purposes, which is supposed to be properly chargeable to the United States, the amount already refunded by the general government, and the amount still claimed as due. Bills were introduced to appropriate to the Deaf and Dumb Institute, $18,000 for current expenses for the ensuing year: to the Institute for the Blind, $6,500 for a work shop, and $19,500 for current expenses, and to protect the credit of the bonds and currency of the State. The bill requiring railroads to transport cord wood was discussed, during which it was argued that the compensation of eight cents a mile was ample and lucrative. The bill was finally postponed to Thursday, and the amendments ordered printed.

In the Assembly a remonstrance was presented against the insurance company bill, and a petition for the relief of farm mortgagors, &c. The resolutions in honor of the retiring Mr. Reed of Door, were adopted. Among the bills introduced were bills to charter the Lake Michigan & Lake Superior Railroad Company, and to execute the trust conferred by the act of Congress' &c., and to dispose of swamp and overflowed lands, &c. After the regular business, some bills having for their object an increase of the Adjutant General's salary elicited a long discussion, which resulted in one bill, appropriating $1,000 for extra labor in compiling reports, being indefinitely postponed, and another, increasing the General's salary from $1,600 to $2,500 being referred again to the judiciary committee.

Professor Chapin, of the Beloit College, was in the legislative halls last night and from his presence we judge that the Assembly bill which greatly lessens the financial prosperity of his institution will not have such an easy time in the Senate as it had in the House.

The ten or eleven substitute brokers, confined in the bull-pen of Camp Randall, on a charge of enlisting Wisconsin men for Illinois, are having a hard, cold time there, and from a dispatch received to-day from Washington, it is likely that their sentence will be banishment from the State.

Gen. Gantt lectures in the City Hall to-night, and notwithstanding the wet, sloppy weather, as his reputation as a speaker is so good, I expect that he will have a full house.

The Turners of this city give an entertainment next Thursday evening, for the benefit of the family of the late Mr. Wickert, wounded unto death while firing a national salute in the service of the State. A bill has also been introduced into the Assembly appropriating $1000 for the relief of the bereaved family.

A circular from the Insurance Agents, on the members desks this morning shows that the total securities of bills of Wisconsin banks is $7,073,670 while their total outstanding circulation is only $2,646,208, leaving an excess of securities over circulation of $4,437,462. Another circular contained a remonstrance signed by thirty of the most substantial business men of Milwaukee against the passage of the bill compelling Insurance companies to deposit State Bonds for the security of policy holders.

YANKEE THISTLE.

DRUNKEN MEN IN PUBLIC LIFE.—It is time to speak. The scandal of this country is drunken men in public life. The disgrace makes our cheeks tingle, makes us blush, makes us hang our head and sicken at heart. A drunken man on the street is a humiliating spectacle. The eye of the least sensitive self-respect turns away in disgust from it. But a drunken man in public life is a public humiliation—a humiliation that involves a nation. It travels to the end of the wires. Every eye every where is a witness of the shame. We are pilloried by it for the scornful gaze of all the good, of all the world.—*Chicago Journal*,

THE GREAT DOUGLAS AND LINCOLN DEBATES OF 1858.

Interesting Review of that Eventful Campaign in Illinois.

Hon. Isaac N. Arnold, in one of the ablest speeches ever made by that gentleman, in Congress, on the 20th ultimo, reviewed the leading events in the history of the decline and downfall of slavery, in which occurs the following interesting chapter of history:

But the man to whom Lincoln was most indebted for his training and his fame was his great political rival, Stephen A. Douglas. These men, both self-made and self-educated, coming in early manhood to Illinois, soon became the leaders, each of his party. No two men were more unlike. Physically and mentally they were contrasts. Lincoln was the giant, Douglas was the "Little Giant." Small in person, a giant in intellect, Douglas was bold, denunciatory, impetuous, ardent, determined. He had the qualities which create personal popularity, and he was ever the idol of his party. His iron will, indomitable energy, full faith in himself and in his cause, united with frank and magnetic manners, and a generous heart, made him one of the strongest men in the nation. These two men were members of the Legislature of Illinois as early as 1836. Douglas had distinguished himself as an able debater and controversialist in Illinois, in the House of Representatives and Senate of the United States, on the great question of slavery, and especially of the treatment of this question in the Territories. After voting to apply the Missouri line to Texas, he finally adopted the position of popular sovereignty, or squatter sovereignty, as it was called, leaving the people of each Territory to settle the question of slavery for themselves. In accordance with this principle he caused the repeal of the Missouri Compromise, and assumed the position that the people of each Territory should themselves choose whether they would exclude or admit slavery. When Buchanan's Administration became a party to the conspiracy to make Kansas a slave State against the will of the people, Douglas adhered to his principal of popular sovereignty, and insisted that the people of Kansas should decide, by a fair vote the question. This brought him in collision with the extreme men of the slaveholders' party, and they sought to degrade him by removing him from his position if Chairman of the Committee on Territories. In July, 1858, the Senatorial term of Douglas was about to expire, and he came home to enter upon the canvass for re-election.

In June, 1858, the Republican State Convention met at Springfield, Illinois, and nominated Abraham Lincoln for the United States Senate in opposition to Douglas. The speech which Mr. Lincoln made at that Convention, brief as it is, is one of the most remarkable in our history. He gave so clear an exposition of the struggle which had long been going on between liberty and slavery that his words immediately seized the attention of the people and became historical. They were recognized as expressing a great philosophic fact, and the man who uttered them, then an obscure lawyer, immediately secured the ear and soon the hearts of the friends of liberty throughout the Union. His speech commencing, "A house divided against itself," etc., is too familiar to need quotations. Of the great conflict between liberty and slavery he said, "We shall not fail; wise counsels may accelerate or mistakes may delay, but sooner or later the victory is sure to come." Such was the grave, philosophic appreciation by Lincoln of the great contest then pending. With this feeling he entered upon that memorable senatorial canvass of 1858 with Senator Douglas. This, whether looking at the persons engaged or the principles involved, was the most remarkable political contest in American history. The two great parties throughout the Union paused to watch its progress, and each observed with eager solicitude the every movement of its champion.

Soon after the arrival of Douglas from Washington, in the summer of 1858, Mr. Lincoln challenged him to a series of debates during the campaign. The challenge was accepted. It was arranged that there should be seven joint debates, each alternately opening and closing the discussion: the opening speech to occupy one hour, the reply one hour and a half, and the close half an hour; so that each tournament should be limited to three hours. These debates, held in different sections of the State and in the open air, called together vast throngs of people. They were conducted with few exceptions, with the dignity and courtesy becoming the occasion. There was every motive to stimulate each champion to the exertion of his utmost power. Each was actuated by sincere convictions that the success of his party was necessary to the safety and prosperity of his country. The Senatorship was the immediate personal prize which would reward the victor, and in the future was the Presidency, probably not overlooked by either, certainly not forgotten by Douglas. The great political questions at issue between the parties were discussed: but each felt, instinctively, that the slavery question was the question of questions. This absorbed all the interest. The question of slavery in the Territories, the Dred Scott decision, the fugitive slave law, and the opinions of the fathers, were among the topics most frequently debated. Douglas went through his campaign with the manner and the bearing of a conquering hero. There was something grand in the boldness with which he threw himself into the contest, and dealt his blows right and left against the great Republican party on one side, and the Administration which sought to aid his defeat on the other. Douglas and his friends were most liberal in their expenditures in this canvass. He had his special trains of cars, a cannon, the firing of which announced his approach, bands of music, his circle of devoted friends traveling with him, and it is said there was expended in the canvass not less than $50,000. Some idea of the plain, simple, frugal habits of Mr. Lincoln may be gathered from a remark made by him after its close, when he said, with the idea apparently that he had been somewhat extravagant, "I do not believe I have spent a cent less than *five hundred dollars* in this canvass."

Senator Douglas was at that time undoubtedly the leading debater in the United States Senate. For years he had been accustomed to meet the trained leaders of the nation in Congress, and never, either in single combat or receiving the fire of the whole party, had he been discomfited. He was bold, defiant, aggressive, vigorous, fertile in resources, terrible in denunciation, familiar with political history, with practiced readiness in all controversial discussion; of indomitable physical and moral courage, and unquestionably the most formidable man in the nation on the stump. The friends of Lincoln were not without anxiety when the challenge was given and accepted for a campaign on the stump. Lincoln was candid, cool, truthful, logical, philosophical; never betrayed into an unfair statement. The criticism upon him as a lawyer was verified and illustrated in these debates: "On the right side of a case, Lincoln is overwhelming; on the wrong side, his sense of justice and right makes him weak." Douglas' ardor always made him, for the time, believe the side he adopted was right. Lincoln argued the side of freedom with the most profound conviction that its triumph was necessary to the greatness and existence of his country.

It was wonderful how strongly in these discussions, as in all the acts of his public life, he impressed the people with his fairness, honesty, and faithfulness. Every hearer in the vast crowds who thronged to these discussions, whatever his political views, went away with the conviction, "Lincoln believes what he says, he is candid, he would not misstate a fact, or take an unfair advantage to secure a triumph." He had one advantage over Douglas, he was always good-humored. He had always an apt and happy story for illustration, and while Douglas was sometimes irritable, Lincoln never lost his temper. Douglas carried away the most popular applause, but Lincoln made the deeper and more lasting impression. Douglas did not disdain an immediate, an *ad captandum* triumph, while Lincoln aimed at permanent conviction. Douglas addressed prejudice, and especially the prejudice against the negro, with an adroitness and power never surpassed. Lincoln stated his propositions, and sustained them with the fullest historical knowledge and irresistible logic. Douglas, owing to the favorable apportionment of the Senators and Representatives in the State Legislature, carried a majority and secured the Senatorship, although a majority of the popular vote was recorded against him.

These great debates made Douglas Senator and Lincoln President.

THE CIRCUIT JUDGESHIP.—During our absence last week, a paragraph was inserted in our paper that seemed to favor the calling of a Convention to nominate a candidate for Ciruit Judge, in opposition to the Hon. David Noggle. Had we been at home, the article would not have appeared. While we do not oppose a Convention—holding that the people, or any number of them, however small, have an undoubted right to hold such and as many conventions as they choose, and to put in nomination as many candidates as they may see proper,—we are decidedly of opinion that Judge Noggle is the best man in the district at all likely to be chosen, and for this reason we give him our entire and hearty support. And we are confident in taking this course, we but reflect the views and follow out the wishes of the people of this county.—*Whitewater Register.*

CURRENCY MATTETS.—Every thing indicates that the currency difficulties will soon be regulated so that the holders of Wisconsin bills will be saved from loss, though our own currency will doubtless be rapidly retired from circulation. We learn from the Bank Comptroller that $53,800 of Wisconsin currency was returned to him to-day and cancelled, and the amount retired thus far this month is $82,320.—*Madison Journal.*

A CHILD BURNED TO DEATH.—A little girl about eight years old, daughter of Mr. Nauertz, of Lemonweir, was burned so badly on Friday afternoon that it only lived until the next day. Its parents were out of the house at the time of the accident, unloading hay, and first knew of it by hearing the child scream.—*Mauston Star.*

THE Richmond papers are warning us and the world that the "confederate" government will never pay our debt! As to its own debt no such warning is necessary.

Valuable Oil Land.

Mr. Skilts, an eminent analytical chemist, submits the following report to the secretary of the new petroleum company: The mining corps, under the direction of Prof. Kratzhalptgu, first penetrated the earth at 18 points by means of artesian wells. This examination developed the existence of petroleum in incredible quantities. No less than 400,000 barrels per day is assured of. I tasted the oil myself. It will make an excellent salad oil; and with very little difficulty may be prepared for use on the hair. For lubricating purposes it is incomparable, and it is highly esteemed for wounds in battle, and all other cases of a ganglious or epigastrian nature. I have no hesitation in saying that these wells are the richest in the world, or any other of which we are informed. A man living in the neighborhood informs me that he has been sick for 90 years, and has always used the petroleum upon his cartwheels. Such is the inexhaustible nature of the yield, that an aqueduct might be built for a very small sum to carry the oil direct to New York or Europe. An artificial fountain and lake of oil might be formed in the vicinity, or an oil canal constructed to float the barrels upon. The oil also yields a variety of excellent perfumes, such as new mown hay, jocky club, jessamine, west end, etc. It is an invaluable substitute for butter, and has been known to fry eels to a delicate brown before the animals had done wriggling. Its paraffinous nature makes it go well with pastry. It makes pudding at sea and pies on shore. In addition to this, it contains a large residum of gold. The following analysis shows the incredible richness of this oil:

Benzole,	1
Chloride of sodium,	1
Pure petroleum,	45
Orange county butter,	11
Hair oil, in bottles,	6
Gold coin,	30
Paraffine candles,	4
Calf's foot jelly,	2
Parts,	100.

Many samples are richer. I possess one which yields two gallons of hair oil and a pound of butter to the gallon of petroleum. In boring for the oil a fine vein of port wine was struck. This might be bottled and sent to market. It is supposed to be over 300,000 years old, and must be good. There is also promise of striking a large subterrancan mine of sardines. Preserved in oil, these fish must be delicious. Besides the above advantages, there are not wanting indications of a fertile yield of quinine, which, while the war lasts, must bring a large revenue to the company. Quinine baths might be constructed, and the quinine itself conducted to the various government hospitals in pipes.

U. S. 7-30 LOAN.

By authority of the Secretary of the Treasury, the undersigned has assumed the General Subscription Agency for the sale of United States Treasury Notes, bearing seven and three tenths per cent. interest, per annum, known as the

SEVEN-THIRTY LOAN.

These Notes are issued under date of August 15th, 1864, and are payable three years from that time, in currency, or are convertible at the option of the holder into

U. S. 5-20 Six per cent.

Gold-Bearing Bonds

These bonds are now worth a premium of nine per cent., including gold interest from Nov., which makes the actual profit on the 7-30 loan, at current rates, including interest, about ten per cent. per annum, besides its *exemption from State and municipal taxation, which adds from one, to three per cent. more*, according to the rate levied on other property. The interest is payable semi-annually by coupons attached to each note, which may be cut off and sold to any bank or banker.

The interest amounts to

One cent per day on a	$50	note.
Two cents " " "	$100	"
Ten " " "	$500	"
20 " " "	$1000	"
$1 " " "	$5000	"

Notes of all the denominations named will be promptly furnished upon receipt of subscriptions. This is

THE ONLY LOAN IN MARKET

now offered by the Government, and it is confidently expected that its superior advantages will make it the

Great Popular Loan of the People.

Less than $200,000,000 remain unsold, which will probably be disposed of within the next 60 or 90 days, when the notes will undoubtedly command a premium, as has uniformly been the case on closing the subscriptions to other loans.

In order that citizens of every town and section of the country may be afforded facilities for taking the loan, the National Banks, State Banks, and Private Bankers throughout the country have generally agreed to receive subscriptions at par. Subscribers will select their own agents, in whom they have confidence, and who only are to be responsible for the delivery of the notes for which they receive orders.

JAY COOKE,
Subscription Agent, *Philadelphia.*

Subscriptions will be received by the
FIRST NATIONAL BANK of Janesville.
ROCK COUNTY NATIONAL BANK of Janesville.

This Company was organized in 1850 and is one of the most popular and successful Life Insurance Companies in the United States.

It was the aim of the Corporators to fill a want in the community by organizing an Institution which should embody the stability of a purely stock Company with the advantages of a Mutual system, declaring all profits to the insured.

DIVIDENDS GUARANTEED.

And paid to the assured annually, thus greatly reducing the amount of premiums.

The amount of Dividend returned to the assured each year, determines the rate of premium per annum.

A Bona Fide Security of $170 for every $100 of Liabilities.

ENDOWMENT PLAN.

This is a non-forfeiting plan, whereby the advantages of Life Insurance are combined with those of a savings' bank. By this mode a policy is made payable to the assured on his attaining a given age, or should he die previous to that age, to his representatives at his death—thus making provision for old age, and at the same time securing beyond contingency, the full amount of insurance to one's family, in the event of early death.

This plan of insurance is becoming deservedly popular, and has received the unqualified approval of our best business men and financiers.

NON-FORFEITURE PLAN.

Premiums all paid in ten annual payments, securing a proportionate amount of the whole sum in a paid up policy, should circumstances make it necessary to discontinue further payments of premium at any time.

Policies issued in all the various forms, and to apply to all the diversified relations of life.

A large amount of former premiums now invested in first class bonds and mortgages in Wisconsin.

All future premiums received in Wisconsin will be retained here.

Which are carrying thousands to their graves annually.

EYE AND EAR!

They treat successfully, on a new method, all diseases of the Eye and Ear. They have had more extensive practice, and better success in the treatment of all

DISEASES OF WOMEN,

Than any other Physicians in America. They have cured women who have been confined to their bed for years. They never fail to cure

RHEUMATISM!

DIPTHERIA CURED!

They have discovered a

CANCERS!

They have had an extensive practice and wonderful success in the treatment of Cancers, which they CURE without eating them out or using the Knife. Let those who have

TUMORS OR SWELLINGS,

or a red spot lose no time in having it attended to, as a timely treatment may save them from the horrors, suffering and death of an open cancer.

CATARRH CURED!

They are treating Catarrh on a new system which is a

SURE CURE FOR THIS DISEASE!

Experience has proved that Catarrh *cannot* be cured by *local* treatment *alone*; hence, the many advertised cures for Catarrh, all of which are local remedies, give relief *only* while the patient is using them, but *never cure.*

Understanding the disease and we know it *cannot* be cured by LOCAL treatment *alone*, therefore, we also prescribe a *constitutional* remedy to be taken, and by the combined *local* and *constitutional* treatment, we are enabled to remove the *causes* of *Catarrh*, and thereby effect

A PERMANENT CURE.

THEIR CONSULTATIONS for years have averaged from five to seven thousand a year, which gives them an experience unsurpassed by any, and equalled only by a few.

☞Remember they do not promise to cure all stages of Disease. While all diseases are curable, if taken in season, all stages are not. Your case may be curable this week, not next—to-day, not to-morrow; hence the danger of delay.

No case will be received, when there are any doubts of Cure or Relief.

Our Terms are CASH; hence the money must be sent with all orders for medicines. It costs from five to fifteen dollars per month, to doctor with us, which includes medicines

☞The poor will be favored.

CONSULTATION FREE.

Patients must write their name, State, post office address, plainly. All letters requiring an answer, must contain a letter stamp, and be addressed to DR. KNAPP & SON, Drawer 6483 Chicago, Ill.

☞Any of the above diseases can be treated successfully by the patients' describing their case in a letter, when they cannot see us.

The New York *Tribune* says, "The reason why Drake's Plantation Bitters are so universally used and have such an immense sale, is that they are always made up to the original standard, of highly invigorating material and of pure quality, although the prices have so largely advanced," &c.

The *Tribune* just hits the nail on the head. The Plantation Bitters are not only made of pure material, but the people are told what it is. The Recipe is published around each bottle, and the bottles are not reduced in size. At least twenty imitations and counterfeits have sprung up. They impose upon the people once and that's the last of them.

The Plantation Bitters are now used in all the Government Hospitals, are recommended by the best physicians, and are warranted to produce an *immediate* beneficial effect. Facts are stubborn things.

* * * The Plantation Bitters have cured me of a derangement of the kidneys and the urinary organs that has distressed me for years. It acts like a charm.
C. C. MOORE, 254 Broadway.

NEW BEDFORD, Mass., Nov. 24, 1863.
DEAR SIR:—I have been afflicted many years with severe prostrating cramps in my limbs, cold feet and hands, and a general disordered system. Physicians and medicine failed to relieve me. Some friends in New York, who were using Plantation Bitters, prevailed upon me to try them. I commenced with a small wine glassful after dinner. Feeling better by degrees, in a few days I was astonished to find the coldness and cramps had entirely left me, and I could sleep the night through, which I had not done for years. I feel like another being. My appetite and strength have also greatly improved by the use of the Plantation Bitters. Respectfully,
JUDITH RUSSELL.

If the ladies of American but knew what thousands of them are constantly relating to us, we candidly believe one half of the weakness, prostration and distress experienced by them would vanish. James March, Esq., of 150 West 14th St., N. Y., says, "he has three children, the first two are weak and puny, his wife having been unable to nurse or attend them, but that she has taken Plantation Bitters for the last two years, and has a child now eighteen months old which she has nursed and reared herself, and both are hearty, saucy and well. The article is invaluable to mothers," &c.

Such evidence might be continued for a volume The best evidence is to try them. They speak for themselves. Persons of sedentary habits troubled with weakness, lassitude, palpitation of the heart, lack of appetite, distress after eating, torpid liver, constipation, diabetes, &c., will find speedy relief through these Bitters.

They are now sold by all respectable dealers throughout the habitable globe. Be sure each bottle has our private United States Stamp over the top, and take none other. We do not sell it in any other way. Any person pretending to sell Plantation Bitters by the gallon is an imposter, and should be immediately reported to us. Beware of *refilled* bottles: examine and see that the stamp has not been mutilated.

DOTY'S
CLOTHES-WASHERS
Are SIMPLE, DURABLE & CHEAP,

MAKE WASHING EASY,
And SAVE CLOTHES.

These Washers were exhibited at the great New England Fair of 1864, won the admiration of thousands, and were awarded a splendid Diploma; also at the Wisconsin and Pennsylvania State Fairs of 1864, they were awarded the first premium.

To Wool Growers !

☞Wool fleeces may be washed in these Machines at the rate of *a fleece in two minutes*, without tearing them apart, and the wool brings the price of *tub-washed wool*, which is *five to eight cents per pound more* than that washed on the sheep. This is very important to every wool grower.
They are recommended as the Very Best in Solon Robinson's great new work, "Facts for Farmers," by ORANGE JUDD, proprietor of the *American Agriculturist* and by other prominent men,
☞It gives us great pleasure to be able to afford these great household blessings at the following comparatively trifling cost, which is a reduction of about 20 per cent. on former prices:

Small Size, at Janesville,	**$ 9.50**
Family " " "	**10.50**
Hotel " " "	**13.50**

☞The above prices include Faucet. Machines with plug instead of faucet, 50 cents less.

Full Directions for Using are Attached to Each Machine.

Any person purchasing a Washer of us may return the same and have the purchase money refunded, if, after four weeks fair trial according to directions, it fails to give satisfaction.
Many of our Washers are now in use in Janesville, and we subjoin the following testimonials:

From Rev. G. W. Lawrence:
MR. DOTY—I confess I have been quite skeptical in regard to the utility of washing machines, until we gave yours a trial. Having tested it thoroughly, we are fully prepard to say, unsolicited, that we regard it as a capital machine. The principle upon which it works is the true one—removing the dirt effectually without injuring the clothes in the slightest manner. My wife endorses it heartily as a labor-saving machine, and considers it truly a "Paragon." With "Doty's Paragon Clothes Washer," and the "Universal Clothes Wringer," washing day is no longer dreaded as in days of yore. G. W. LAWRENCE.
JANESVILLE, Nov. 11th, 1861.

Messrs. Doty Bros.:
GENTLEMEN—I have had in use one of your Washing Machines since May last. We have tried other inventions, but they have invariably proved worthless, after a few weeks use. Yours is the only invention that has stood a satisfactory test in my family. It works admirably, and is a great labor saving machine; while in point of economy it has no equal. It has more than saved its cost already in the diminished wear of clothing, as compared with any other process of washing with which I am familiar. No family can well afford to be without one. Yours truly.

Sewing Machines.

WILCOX & GIBBS'

SEWING MACHINE!

Will Stitch, Hem, Fell, Tuck, Cord, Bind, Braid, Quilt and Embroider beautifully. It will, with the *finest* needle and thread, run from perfect work on the finest Nainsook, over the heaviest beaver cloth and cowhide, with no change of needle, thread or tension.

Wilcox & Gibbs Sewing Machine

will use coarse *cotton, linen, silk* and *twine*. It runs easier, faster and stiller than any other machine. It forms a flat, even and elastic seam, differing from every other stitch, each loop being *twisted* by means of the

"ROTATING HOOK,"

and drawing the twist *into the goods*, thus securely fastening every stitch, so that the seam will bear to be cut at frequent intervals, and in that case even, the seam is warranted NOT TO RIP in wear, and under all circumstances to *"survive the washtub."* Old worn out family garments, bosoms, pants, dresses, &c., have been submitted to Committees at Fairs where was the *greatest competition*, and to THIS STITCH premiums have been awarded for its SUPERIORITY, DURABILITY, ELASTICITY and BEAUTY.
A Patented Device *prevents the possibility of the machine being run in the wrong direction*, or the balance wheel ever wearing or touching the dress. By another ingenious Patent improvement,

The Needle Cannot be Set Wrong,

Thus avoiding the great trouble of other machines. In fact it is so easy that a child may set it to the dark with unerring correctness every time.

NO BREAKING OF NEEDLES.

The Blade of the needle is less than ¾ of an inch long, and is straight. It is less than half the length of other machine needles, many of which are curved, therefore more easily bent or broken—a great source of annoyance, expense and trouble. The Hemmer and Feller can never be set wrong. And no one may adjust them *in the dark*. The hem may be of any width. No other hemmer or feller is like this. It turns the hem on the right or upper side, as you want it.

IT WILL NOT DROP STITCHES;

As the needle is always set right, the blade short and straight does not vibrate, like longer ones.

Wilcox & Gibbs Sewing Machine

Is run by steam at 4000 stitches per minute—other machines only at 400 to 1200, with safety They are manufactured with

MATHEMATICAL PRECISION,

Hence each part is interchangeable, and can be readily placed in case of accident.

THEY WILL NOT GET OUT OF ORDER

We have known it intimately for several years. Many thousands are already in use here, and so far as we know, not one in family use has ever cost a dime to repair, or ever been out of order at all. They will last a generation, if properly cared for. None who have used it can be persuaded to use any other.

Wilcox & Gibbs Sewing Machine

Works at an instant's notice, and never stops "unaccountably." Not one operator in ten on the Wilcox & Gibbs will break a needle or drop a stitch in a year. The Wilcox & Gibbs in the hands of any one, knows no "skips," "drops," "jumps" or "misses." The soundness, evenness, durability and beauty of its stitch

WERE NEVER EQUALED.

Its rapidity, absolute stillness, ease of motion, narrowness and neatness of its Hem and Fell were never approached by any other machine. We can call in any boy or girl from the street, and with three minutes instruction they will set the needle, attach the Hemmer, or Feller, and do the work with entire success. A blind girl, with the exception of threading the needle, can do the same. Many ladies owning other first-class machines, come to our office to do their fine hemming and tselling on the Wilcox & Gibbs Machine.
The press universally pronounce this the best family sewing machine in the world.

From the Hon. Thomas B. Florence.
From the Hon. Thomas B. Florence.
From the Hon. Thomas B. Florence.

WASHINGTON, Jan. 1st, 1864.

Gentlemen:—Having stated it verbally to you, I have no hesitation in writing the fact, that I experienced marked benefit from your Hoofland's German Bitters. During a long and tedious session of Congress, pressing and onerous duties nearly prostrated me. A kind friend suggested the use of the preparation I have named. I took his advice, and the result was improvement of health, renewed energy, and that particular relief I so much needed and obtained. Others may be similarly advantaged if they desire to be.
Truly your friend, THOMAS B. FLORENCE.

From **John B. Withersham,** Esq., firm of Withersham and Hutchinson, the celebrated manufacturers of Fancy Iron Works, 259 Canal street:
I am the recipient from you of one of the greatest favors that can be conferred upon man, viz., that of health. For many years have I suffered from one of the most annoying and debilitating complaints that the human family can be afflicted with, Chronic Diarrhœa.
During the long time I was suffering from this disease, I was attended by regular physicians, giving me but temporary relief. The cause seemed to remain until I was induced to try Hoofland's German Bitters After the use of a few bottles of that valuable medicine, the complaint appeared to be completely eradicated.
I often inwardly thank you for such a valuable specific, and, when I have an opportunity, cheerfully recommend it, with full confidence in its reliability.
Truly yours, JOHN B. WITHERSHAM.
New York, Feb. 2, 1864.

From **Julius Lee,** Esq., firm of Lee & Walker, the most extensive Music Publishers in the United States, No. 722 Chestnut street, Philadelphia.
February 8th, 1864.
Messrs. Jones & Evans—Gentlemen: My mother-in-law has been so greatly benefitted by your Hoofland's German Bitters that I concluded to try it myself. I find it to be an invaluable tonic, and unhesitatingly recommend it to all who are suffering from dyspepsia. I have had that disease in its most obstinate form—flatulence—for many years, and your Bitters has given me ease when everything else had failed.
Yours truly, JULIUS LEE

From the Hon. Jacob Broom.

PHILADELPHIA, Oct. 7th, 1863.
Gentlemen:—In reply to your inquiry as to the effect produced by the use of Hoofland's German Bitters in my family, I have no hesitation in saying that it has been highly beneficial. In one instance, a case of dyspepsia of thirteen years' standing, and which had become very distressing, the use of one bottle gave decided relief, the second effecting a cure, and the third, it seems, has confirmed the cure, for there has been no symptoms of its return for the last six years. In my individual use of it, I find it to be an unequalled tonic and sincerely recommend its use to the sufferers.
Truly yours, JACOB BROOM, 1707 Spruce.

From **Rev. W. D. Seigfried,** Pastor of the 12th Baptist Church:
PHILADELPHIA, December 20th, 1863.
Messrs. Jones & Evans—Gentlemen: I have recently been laboring under the distressing effects of indigestion, accompanied by a prostration of the nervous system. Numerous remedies were recommended by friends, and some of them tested but without relief. Your Hoofland's German Bitters were recommended by persons who had tried them, and whose favorable mention of the Bitters induced me also to try them. I must confess that I had an aversion to Patent Medicines, from the "thousand and one" quack "Bitters," whose only aim seems to be to palm off sweetened and drugged liquor upon the community, in a sly way; and the tendency of which, I fear, is to make many a confirmed drunkard. Upon learning that yours was really a medicinal preparation, I took it with happy effect. Its action not only upon the stomach, but upon the nervous system, was prompt and gratifying. I feel that I have derived great and permanent benefit from the use of a few bottles.
Very respectfully yours, W. D. SEIGRIED,
No. 254 Shackamaxon Street.

From the **Rev. Thos. Winter,** D. D., Pastor of Roxbury Baptist Church:
Dr. Jackson—Dear Sir: I feel it due to your excellent preparation, Hoofland's German Bitters, to add my testimony to the deserved reputation it has obtained. I have for years, at times, been troubled with great disorder in my head and nervous system. I was advised by a friend to try a bottle of your German Bitters. I did so, and have experienced great and unexpected relief; my health has been very materially benefitted. I confidently recommend the article where I meet with cases similar to my own, and have been assured by many of their good effects.
Respectfully yours, E. WINTER,
Roxbourough, Pa.

From **Rev. J. S. Herman,** of the German Reformed Church, Kutztown, Berks county, Pa.
Dr. C. Jackson—Respected Sir: I have been troubled with Dyspepsia nearly twenty years, and have never used any medicine that did me as much good as Hoofland's German Bitters. I am very much improved in health, after having taken five bottles.
Yours, with respect, J. S. HERMAN.

IRRITATION OF THE NECK OF THE BLADDER, INFLAMMATION OF THE KIDNEYS, CATARRH OF THE BLADDER,

STRANGURY AND BURNING, OR PAINFUL URINATING.

For these diseases it is truly a sovereign remedy, and too much cannot be said in its praise. A single dose has been known to relieve the most urgent symptoms.
Are you troubled with that distressing pain in the small of the back and through the hips? A teaspoonful a day of the Constitution Water will relieve you like magic

CONSTITUTION WATER

has proved its worth to the sick that have used it.

DIURETICS

Irritate and disorder the kidneys, and by constant use much lead to chronic degeneration and confirmed disease

We present the Constitution Water to the public with the conviction that it has no equal in relieving the class of diseases for which it has been found so eminently successful for curing; and we trust that we shall be rewarded for our efforts in placing so valuable a remedy in a form to meet the requirements of patient and physician.

IN DYSMENORRHŒA, OR PAINFUL MENSTRUATION, AND MENORRHAGIA, OR PROFUSE FLOWING.

Both diseases arising from a faulty secretion of the menstrual fluid—in one case being too little and accompanied by severe pain, and the other a too profuse secretion, which will be speedily cured by the Constitution Water.

That disease known as FALLING OF THE WOMB which is the result of a relaxation of the ligaments of that organ, and is known by a sense of heaviness and dragging pain in the back and sides, and at times accompanied by sharp, lacerating or shooting pains through the parts, will, in all cases, be removed by the use of the medicine.

There is another class of symptoms arising from IRRITATION OF THE WOMB, which physicians call Nervous Fever, which word covers up much ignorance, and in nine cases out of ten the doctor does not really know whether the symptoms are for disease, or the disease from symptoms. We cannot enumerate them here. I speak more particularly of Cold Feet, Palpitation of the Heart, Impaired Memory, Wakefulness, Flashes of Heat, Loss of Energy, Loss of Self-Confidence of Virtue,

SUPPRESSED MENSTRUATION,

Which is the unfortunate lot of so many married and
